WATER WAYS TECHNOLOGIES INC.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
(US Dollars in thousands)

NOTE 1 – GENERAL:

- A. Water Ways Technologies Inc. ("**Water Ways**", "**WWT**" or the "**Company**") was incorporated under the Business Corporations Act (Ontario) on April 20, 2007 and was classified as a Capital Pool Corporation as defined by TSX Venture Exchange ("**TSX-V**" or "**Exchange**") Policy 2.4. Water Ways Technologies Inc. is the parent company of Irri-Al-Tal Ltd. ("**Irri-Al-Tal**" or "**IAT**"), Heartnut Grove WWT Inc. ("**HGWWT**"), Zoryan Trade S.A. ("**Zoryan**") and Maravey Corporation S.A. ("**Maravey**"), and indirectly through Irri-Al-Tal of H.D.P Irrigation Ltd. ("**H.D.P**") and IRRI-AL TAL (Shanghai) Agriculture Technology Company Ltd. ("**IRRI-AL TAL (Shanghai)**" or "**IAT Shanghai**"). The Company's registered address and principal place of business is 77 King Street West, Suite 2905, Toronto, Ontario, M5K 1H1.
- B. Water Ways is an agriculture technology company that specializes in providing water irrigation solutions to agricultural producers. The Company competes in the global irrigation water systems market with a focus on developing solutions with commercial applications in the micro and precision irrigation segments of the overall market.
- C. 1. Irri-Al-Tal was incorporated on October 11, 2003, under the laws of the State of Israel.
2. On March 6, 2019, Water Ways completed its Qualifying Transaction by completing a reverse takeover.
3. On June 17, 2019, the Company announced that it had closed its previously announced acquisition of certain assets of Heartnut Grove Inc. ("**Heartnut**") and established HGWWT.
4. On October 27, 2019, Water Ways, thorough Irri-Al-Tal, established a new Israeli company, H.D.P, of which Irri Al-Tal holds a 73% interest.
5. On February 26, 2020, H.D.P established a new wholly owned subsidiary in the Republic of China, IRRI-AL TAL (Shanghai).
6. On September 2, 2020, Water Ways acquired 52% interest in two companies, incorporated and existing in the Oriental Republic of Uruguay, Zoryan and Maravey.
- D. The 2019 Novel Coronavirus infection ("**Coronavirus**", "**Covid-19**" or the "**Event**") pandemic poses a major public health threat. It has hindered the movement of people and goods worldwide, and many governments are instituting restrictions on both individuals and businesses. The resulting impact on financial reporting will be significant. Significant development and spread of the coronavirus did not take place until January 2020, with the World Health Organization (WHO) announcing the coronavirus as a global health emergency on January 30, 2020, which prompted national governments around the world to begin putting actions in place to slow the spread of Covid-19. Furthermore, significant measures taken by the Chinese government and by private sector organizations did not take place until early 2020. On March 11, 2020, the WHO declared Covid-19 a global pandemic and suggested worldwide containment and mitigation measures. In response to the pandemic, the Company has adjusted its business practices with a

NOTE 1 – GENERAL (CONT.):

focus on the health and well-being of our employees and their families, customers, partners, service providers, and communities. Certain of the Company's offices have been subject to government-mandated lockdowns for some periods of time and the Company's supply chains have been adversely affected. However, the Company's teams have been able to perform their functions remotely without meaningful reductions in the Company's ability to service its customers. The Company has not experienced any cancellations of existing orders or agreements but has experienced many delays in orders from vendors. As a result, customer orders were delayed as well. While attitudes are now more positive as a result of vaccination developments, experience of successive waves vary significantly around the world and may change rapidly as we have seen in the past. In the meantime, comparisons between periods have been affected by delays pushing revenues into following periods and may have resulted in some apparently adverse comparisons where normal conditions might have resulted in a smoother growth curve.

The Company continues to take all appropriate precautions both in its operations and in its planning yet it encounters delays in projects, especially in IAT Shanghai, where government's zero-COVID policy takes place and millions of people in several regions in China were under quarantine during the period. The Company hopes that the Event will create demand in certain countries for self-sustaining food supplies in times of world crisis. The Company also hopes that there will be a growing demand for smart irrigation solutions in countries that are aware of the risk of shortage in food supplies that will seek to grow more crops domestically. The impact on the Company is still causing delays in 2022 projects in China.

- E. The geopolitical situation of tension in Eastern Europe intensified on February 24, 2022, with Russia's invasion of Ukraine. The war between the two countries continues to evolve as military activity proceeds and additional sanctions are imposed. In addition to the human toll and impact of the events on entities that have operations in Russia, Ukraine, or neighboring countries or that conduct business with their counterparties, the war is increasingly affecting economic and global financial markets and exacerbating ongoing economic challenges, including issues such as rising inflation and global supply-chain disruption. Because of its broader impact on these macroeconomic conditions, the Company may need to consider the war's effect on certain accounting and financial reporting matters. The degree to which the Company is or will be affected by them largely depends on the nature and duration of uncertain and unpredictable events, such as further military action, additional sanctions, and reactions to ongoing developments by global financial markets. The impact of the Conflict on the Company causes delays in 2022 projects in Uzbekistan and other regional territories which conduct business with Russia.

B. The following details the outstanding ordinary shares, warrants, compensation warrants, and stock options (cont.)

2. Derivative liability - Warrants:

In accordance with IAS 32, since the exercise prices of the PP Warrants and Finder Warrants issued are not a fixed amount as they are denominated in a currency (Canadian dollar) other than the Company's functional currency (U.S. dollar), the PP Warrants and the Finder Warrants are accounted for as a derivative financial liability. Each warrant liability is initially measured at fair value and subsequent changes in fair value are recorded through Net and Comprehensive Profit for the period. The fair value of the PP Warrants and Finder Warrants was determined initially using a comparable warrant quoted in an active market, adjusted for differences in the terms of the warrant. The PP Warrants and Finder Warrants were categorized as level 3 (see Note 2 to the Audited Financial Statements - Fair value measurement).

As of June 30, 2022, the Warrant's fair value measurement was \$1,582.

- a) On March 11, 2021, the Company announced that prior to the expiry of its repriced Warrants, it received instructions to exercise a total of 10,036,458 Warrants (equaling 89% of all outstanding Warrants) resulting in the issuance of an equal number of common shares and aggregate proceeds to the Company of \$475 (equivalent to CAD\$602). During the three months period ended March 31, 2021, the Company received instructions to exercise 9,969,495 Warrants resulting in the issuance of an equal number of common shares and aggregate proceeds to the Company of \$472 (equivalent to CAD\$598).

- c) On July 27, 2021, the Company's Offering resulted in the issuance of 10,022,850 PP Warrant and 1,227,468 Finder Warrant (see Note 4A).
- d) During the six months period ended June 30, 2022, the Company received instructions to exercise 1,276,398 PP Warrants resulting in the issuance of an equal number of common shares and aggregate proceeds to the Company of \$181 (equivalent to CAD\$230). In addition, the Company received instructions to exercise 65,917 Finder Warrants resulting in the issuance of an equal number of common shares and PP Warrant and aggregate proceeds to the Company of \$6 (equivalent to CAD\$8).

The following table reflects the continuity of warrants (PP Warrant and Finder Warrant) for the periods presented:

The fair value measurement of the warrants in the table above, using the Black-Scholes model, is based on significant unobservable inputs and thus represent a level 3 measurement within the fair value hierarchy. The key inputs that were used in measuring the fair value of the Warrants were: risk free interest rate- 0.62%, expected volatility-100%, expected dividend yield 0% and expected term- 1.5 year. The Company considers expected volatility of the shares of comparable companies and its Common Shares in estimating its future stock price volatility. The risk-free interest rate for the expected life of the warrants was based on the yield available on Canadian government benchmark bonds with an approximate equivalent remaining term at the time of the grant. The expected life is based on the contractual term.
